

VDM Screen rights are based on :

Joomla user types
Virtuemart perms

1- Import additional Virtuemart perms (auth-group) :

- Download : www.virtuemart-datamanager.com/vdm/auth-groups.csv
- Use import feature to import perms (auth-group).

2- Create users

Note : Users with joomla type (Administrator or Super Administrator) have all access.
For specific level :

- Create joomla user with type : **Manager**
- In virtuemart -> admin -> users -> select user -> shopper information -> **permissions** select perms.

all permissions are defined here :

www.virtuemart-datamanager.com/vdm/VDM-rights.xls

Joomla Type	VM Perms	Categories/products	Orders	Customers	Generators
-------------	----------	---------------------	--------	-----------	------------

Manager	Manager-prod	x			
Manager	Manager-order	x		x	

Manager	Manager-customer	x	x
---------	------------------	---	---

Manager	Manager-general	x	x
---------	-----------------	---	---

Manager	Manager-stats	x	x
---------	---------------	---	---

Manager	Manager-report	x	x
---------	----------------	---	---

Admin/ Super Admin	*	x	x
--------------------	---	---	---

Manager	Manager-onlyprod	x
Manager	Manager-onlyorder	x
Manager	Manager-onlycustomer	x
Manager	Manager-onlygeneral	x
Manager	Manager-onlystats	x
Manager	Manager-onlyreport	x
	x	

Note : With VDM2 you need allow access to Manager and Admin in SOA Component

Access Rights

Allow simple Admin to connect trough Webservices

Allow Manager to connect trough Webservices
